

THE NEW ADDITIONAL SECURITY RANGE FROM YALE.

**New products now available
from Yale, including window and
door locking solutions.**

ONLY THE NAME HAS CHANGED.

For many years, the Chubb Locks brand has lead the way with a comprehensive range of additional security products that customers have come to know and trust. Following the recent changes to the Chubb Locks brand, those same products will now be available under the Yale brand.

Offering exactly the same quality and security that customers have come to expect, the new Yale products will be identical in all but name. They will continue to offer customers the additional protection to improve the security of their timber, plastic and metal doors and windows.

Welcome to the future.

For further details of the new ranges,
talk to your sales representative or visit

NOTHING IS CHANGING
EXCEPT THE NAME.

Although the main range of Chubb Locks products will be changing, these changes **do not** affect Chubb Locks Custodial Services, who will continue to offer their comprehensive range of locking solutions for detention markets under the Chubb Locks name.
